

## Turn Conveyor (Model:PTF-250)

**一、 Features**

1	The closed design of the swivel mechanism guarantees the highest level of safety
2	PLC control system, color touch screen operation interface
3	The stepper motor controls the rotation mode, which is efficient and stable, and the positioning is accurate
4	The direction of rotation can be freely selected in multiple modes, which is convenient to use
5	Compatible SMEMA communication methods

**二、 Specifications & Technical Parameters**

1	Description	It is used to adjust the running direction of the board to different paths
2	Cycle time	About 15 seconds
3	Transmission height	900±20mm
4	Transmission direction	L→R or R→L
5	Transmission angle	90-180 degrees or straight-through
6	Width adjustment method	Auto-regulation
7	Circuit board effective size	80(L)*50(W)-350(L)*310(W)mm
8	Dimension(L*W*H)	L600*W600*H1200mm
9	Power supply and electric load	220V AC, single phase Max 120 VA
10	Board thickness	Minimum 0.6 mm
11	Weight(Kg)	100Kg
